Other Wells Fargo Benefits

Strengthen Your Security Before Peak Shopping Season

Fraud increases in the fall and during the busy holiday shopping season. Help protect your account by taking advantage of the security tools already available to you:

1) Add your card to a digital wallet⁽¹⁾

- Pay conveniently and securely both in-store and online.
- Your card number remains private, helping to protect your account and information.

2) Know how to turn your credit or debit card on or off⁽²⁾

- Misplaced your card? No problem.
- Turning your card off can help stop unauthorized use until you find it again.

3) Enable two-factor authentication

- Add a second layer of account protection.
- Help detect and prevent unauthorized access to your accounts if your password is stolen.

The best part? It takes less than 10 minutes to set up. Just sign-on to the Wells Fargo Mobile® app⁽³⁾ now to add these features.

- 1. Digital wallets may not be available on all devices.
- 2. Turning off your card is not a replacement for reporting your card lost or stolen. Contact us immediately if you believe that unauthorized transactions have been made. Turning your card off will not stop card transactions presented as recurring transactions or the posting of refunds, reversals, or credit adjustments to your account. Any digital card numbers linked to the card will also be turned off. For debit cards, turning off your card will not stop transactions using other cards linked to your deposit account. For credit cards, turning off your card will turn off all cards associated with your credit card account.
- 3. Availability may be affected by your mobile carrier's coverage area. Your mobile carrier's message and data rates may apply.
