Information Quality and Data Governance Survey

1. Welcome Message

Thank you for participating in this web-based survey conducted by the International Association for Information and Data Quality (IAIDQ) and the Master of Science in Information Quality (MSIQ) Program at the University of Arkansas at Little Rock. The purpose of the survey is to gain insight into the current state of data quality in organizations and the responsibilities and compensation of data quality practitioners.

Completion time will vary among participants, but should require no more than approximately 20 minutes. Strict individual and organization confidentiality and anonymity are guaranteed, as you are not asked to provide any contact information in the survey. There is no penalty of any kind if you should choose not to participate in this survey or if you decide not to complete it. Any incomplete response will be disregarded, as the focus is on consistency and completeness. Only the individuals listed below will have access to the raw survey data. The results of this survey will be valuable to data quality practitioners, job seekers and employers, and to the academic community.

A report discussing survey findings and implications will be published in June 2016 on the IAIDQ web site (iaidq.org). If you have any further questions regarding this project, please feel free to contact us:

This study has been reviewed and approved by The University of Arkansas-Little Rock's Institutional Review Board (IRB). The IRB has determined that this study meets the ethical obligations required by federal law and University policies. If you have questions or concerns regarding this study please contact the Investigator or Advisor. If you have any questions regarding your rights as a research subject, please contact the Research Compliance Officer via email: irb@ualr.edu or phone: +1-501-569-8656.

Thank you very much for your assistance with this survey; it is much appreciated. Remember that your participation in this study is completely voluntary, and you may choose not to participate. You are free to withdraw from this study at any time with no penalty to you. Your responses will be confidential. If the results of this study were to be written for publication, no identifying information will be used. Remember that after the survey closes, IAIDQ will conduct a random drawing from the pool of survey participants who completed the survey and who provided their name and contact information to select four winners to receive complimentary membership in IAIDQ for one year.

If you consent and are now ready to take the survey, please click on the Next Button to continue; otherwise, click on the Exit link to quit the survey.
